SUMMARY

An aspiring mobile developer with experience gained from academic and personal projects, focusing on backend development and database management. Adaptable to web technologies and eager to grow as a developer by building efficient, maintainable, and scalable applications.

RELEVANT EXPERIENCE

Lead Developer

2026

Intermed LLC Corporation | Bonifacio Street, Baguio City | Hybrid | Internship

- Developed a full-scale HRIS across 6 modules including employee management, timekeeping, payroll, analytics, request workflows, and system administration using Laravel and MySQL.
- Architected the database structure and backend logic, writing and reviewing code across all modules to ensure scalability, relational consistency, and clean implementation.
- Mentored and guided junior developers throughout the project, overseeing code quality, task delegation, and technical decision-making within the development team.

PROJECTS

RoboFrontier: A Game-Based Robotics Learning RPG

2025

Capstone Project | Senior Programmer | Android | Unity | C#

- Led the development of the game's core systems and backend functionality, ensuring smooth gameplay and reliable data handling.
- Implemented database logic, game state management, and in-game mechanics to support interactive learning features.
- Contributed to story development and narrative flow, enhancing engagement and educational value.
- Collaborated with cross-functional team using Agile Scrum, coordinating with designers and illustrators to integrate programming and visuals seamlessly.

TechBite

2023

Fast Food E-commerce Mobile App | Android Studio | Java

- Developed a mobile e-commerce application focused on fast food ordering concepts.
- Implemented product listings, cart functionality, and user navigation using Java.
- Strengthened understanding of mobile UI components, activities, and intents.

MiDas

2024

Finance Mobile App | Flutter | Dart

- Developed a concept-based lending application where interest earnings are directed to charitable causes.
- Implemented core UI flows, input handling, and data presentation using Flutter widgets.

PawPal

2025

Web Application | Frontend Developer | HTML, CSS, JavaScript

- Developed the frontend of a startup web application for pet care services such as grooming, pet walking, and pet sitting.
- Implemented booking-related UI flows, including service selection and scheduling interfaces.
- Collaborated with team members to align features with startup goals and user needs.

EDUCATION

Bachelor of Science in Information Technology

2022 - 2026

Urdaneta City University | Urdaneta City

AWARDS AND ACHIEVEMENTS

Android Development (Game Category), Champion

2025

IT Skills Olympics | University of Makati

Research Presentation, Top 3

2026
